

Allowing mega-media corporations to own radio/tv/newspaper dominating a market severely limits citizens daily access to fair and impartial news while allowing a few giant media companies in control of even more of what the public sees, hears and reads.

Sinclair Broadcasting's is doing just that. With their decision to force their stations to air an anti-Kerry documentary days before the election, Sinclair is violating everything that a democracy stands for. By controlling access to information, Sinclair is using the public airwaves for their own political gain at the expense of the freedoms of the American people.

We need to strengthen media ownership rules, not weaken them. We need to maintain fair and equal treatment of the dissemination of information and not allow large company biases to force their opinions on the American people. Thank you.
